Dear Jackson, ←———— **Salutation**

I have been thinking about the fun times we had this summer. Camping out on our own was such a blast! You are so lucky to live right by Lake Agnes. All the wildlife is amazing. It seems like frogs, skinks, salamanders, fish, deer, loons, geese, even eagles are everywhere! Fishing was absolutely awesome. I also really enjoyed the hunter's training class we took together. Hopefully we can try duck hunting the next time I come.

How is high school? Is it a hard transition like everyone says? Eighth grade is okay so far. I know all the teachers and the school so it's pretty relaxed. What's tough is my 8:00 a.m. math class. My brain is not awake at that hour! Football season is right around the corner. I hope to make varsity my freshman year so I have to work hard and prove myself this season. Wish me luck. I am glad school started, but I am already looking ahead to next summer. When you head this way next year we'll go to Lake McConaughy and bottom fish for walleye. I've watched some old timers jig and pull in some big ones. We'll bring the pup tent again and camp away from the rest of the family, maybe down in the dunes.
